Key Take-Aways

Grant-writing collaborations
(boilerplates, intramural feedback opportunities)

Shared resources (database, techniques, equipment, IACUC, IRB)

Intellectual, risk-taking environment
(chalk talk, idea blitz, giving and receiving help)

Key Take-Aways

Patient engagement: challenges and triumphs
- reinforces shared accomplishments and increasing philanthropy

Non-work activities (social, recreational, educational) to build community and relationships

Regular and consistent internal and external communications (showcase milestones, news, social media)

Current Plans

New “Chalk Talks” — small monthly gathering of colleagues with NEW research directions who are eager for input and in-depth discussion with invited center members.

TBI Co-Op to provide access to Acquired Injury models and “know-how.”

Monthly “center updates” email to include events, members accomplishments, member publications, and other information. Submit suggestions [here](#).

Member outreach to develop database of shared resources.

Pilot seed grants to encourage collaborations among center members—RFA coming in Jan 2023!
